

# Danvers Indoor Sports - Soccer Referee Schedules - Upload to DIS Website November 2024

To make the weekly soccer referee schedule available to referees and DIS staff, there is a page on the DIS website named "Referees Schedule". This is part of the online schedule function of the DIS website. Here several sports schedules are posted for players, coaches, parents, etc. to easily access their game location and time.

To access this page, go to the DIS website and hover over "Youth Sports" or "Adult Sports".

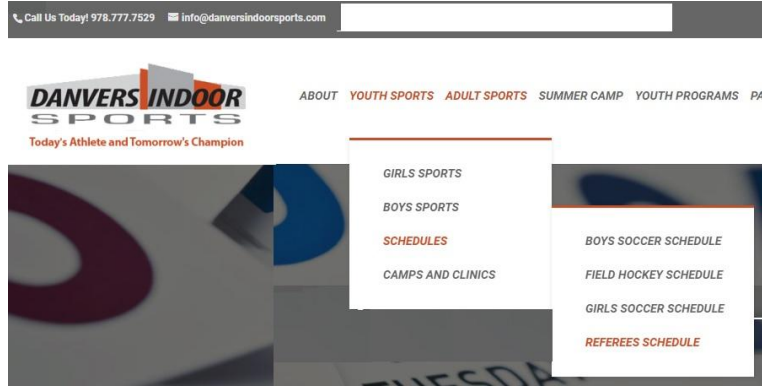

A menu will be displayed.

Hover over "Schedules".

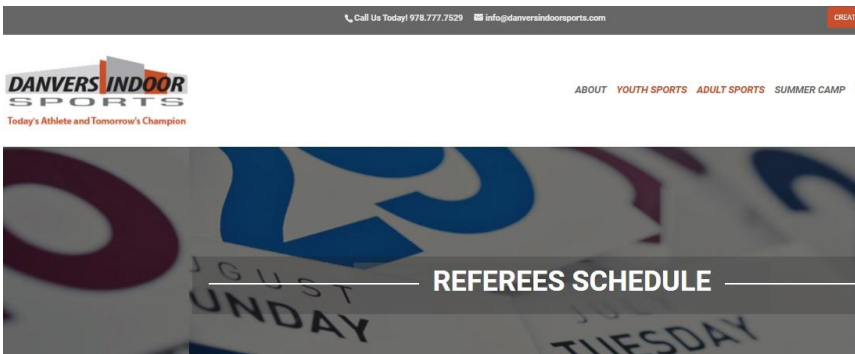

Another menu will be displayed.

Click on "Referees Schedule".

(See the image on the right).

This will bring you to the Referees Schedule page.

The page was designed for leagues so schedules are displayed according to the day of the week the league plays on.

There is no specific day of the week for a referee schedule but this display format must be used.

To find the weekly schedule you are interested in, ignore the day of the week and locate the date range you want - for example "Nov 25 - Dec 1".

Click on the file name out to the right and a PDF file will be displayed.
